FLOORPLANS

THE MASTERPLAN

At AÍDA, design and architecture converge to deliver an immersive and elevated living experience —one that speaks the language of both innovation and timeless sophistication. Each residence is a product of visionary architectural thinking, where spatial harmony, natural light, and flowing proportions are meticulously orchestrated to enhance everyday life.

Strategic Composition:

The project's unique layout and limited scale —only **eight duplex residences**—ensures maximum privacy, optimal orientation, and a sense of individuality for each home. Whether on the garden level or crowned by a panoramic rooftop solarium, each unit has been positioned to capture the **best natural light, open sea views**, and the calm elegance of its surroundings.

Thoughtful Interior Planning:

The **open-concept floor plans** have been carefully designed to create seamless transitions between interior and exterior spaces. From expansive living rooms to sunlit terraces and private pools, each environment invites relaxation and connection while preserving intimacy and privacy.

Bespoke Interior Architecture:

Fully furnished by **Bentley Home**, every residence is an architectural canvas enriched with custom detailing, noble materials, and refined textures. The interiors reflect a mastery of proportion and craft, elevating each space with a **quiet sense of luxury** that is at once contemporary and enduring.

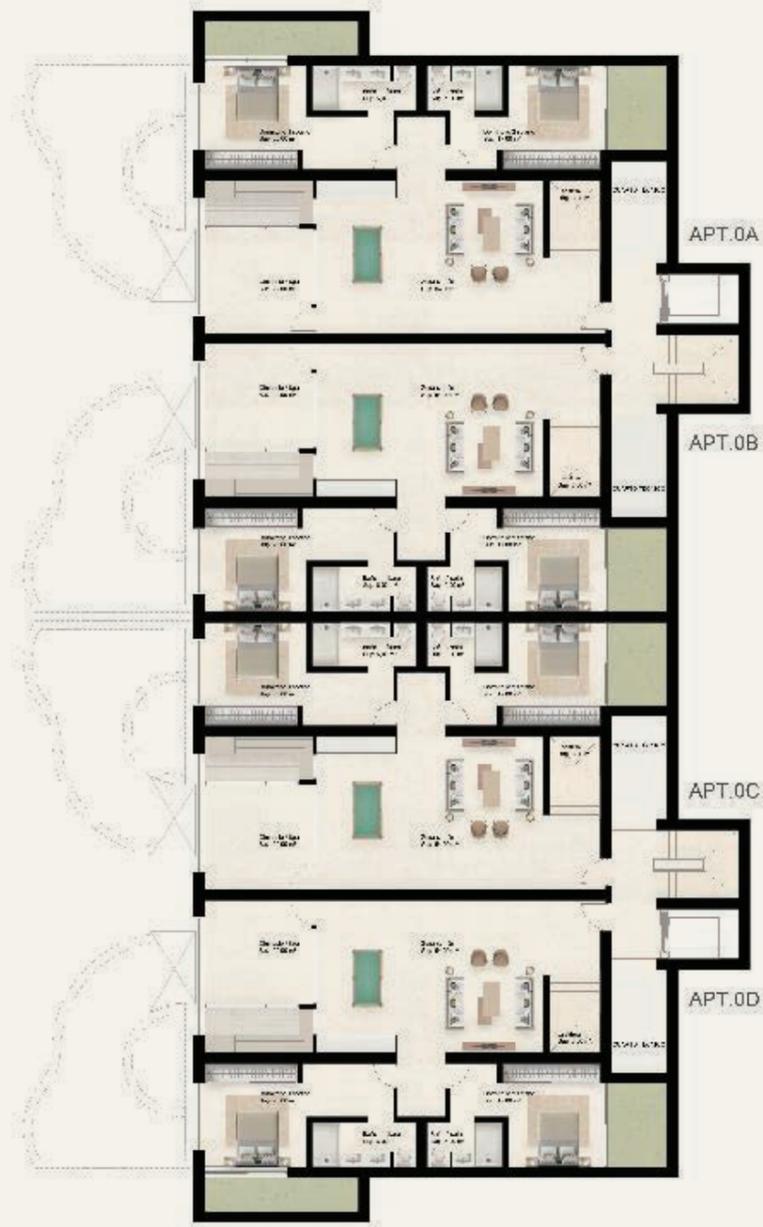

At AÍDA, every floor plan is more than a layout —it is a **carefully crafted expression of elevated living**, designed to engage the senses, honour its surroundings, and offer its owners a space that is both practical and poetic.
