# South Place

**Welcome**

Our commitment with you begins right from day one, so we want to share your new home's building specifications with you. Find out all the details about South Place and start to imagine the spaces that will, in no time, become a dream come true.

**What do you need?**

Non-contractual images merely for illustration purposes subject to technical or commercial modifications by the project management or the competent authority. The computer graphics of the façades, communal elements and other spaces are for guidance only and may be the object of verification or modification in the technical projects. The furniture in the computer graphic interiors is not included and the dwellings will come with the equipment and fittings indicated in the corresponding building specifications. All the information and documentation delivered will be carried out compliant with the provisions set forth in Royal Decree 515/1989 and other regulations (national or regional) that may supplement said decree.

# Your community

At AEDAS Homes, quality is our hallmark and an ever-present objective, hence we have put great thought into all the details of your new home.

## Entrances and lobbies

At South Place, we have paid the utmost attention to the community areas. In the communal indoor spaces, the floors will be finished in porcelain stoneware and the walls will combine different materials depending on the zone.

They will also include technological features in the form of lighting triggered by separate motion sensors for the different zones and floors, thus rationalising resource use and consumption which will translate into important energy savings at the end of the month.

The elevator cars will be finished in accordance with the rest of the project and be sized to meet Accessibility Regulations. They will have automatic doors and be fitted with an alarm and a telephone service for emergencies.

## The community interior

Your community will make you feel proud of your new home even before you go inside.

South Place has been conceived as a gated community inside which you have landscaped gardens for your leisure and enjoyment.

To help you share unforgettable moments with those you love the most, the development will come with a pool for children and adults, gardens and bicycle storage facilities.

-  Children's paddling pool and swimming pool for adults.
-  Gymnasium.
-  Garden areas.
-  Bicycle storage.
-  Accessibility ramps.

# Your new home

## Hall, lounge-dining room, passageway and bedrooms

The hall, lounge, bedrooms and passageway of your new home will be paved in porcelain stoneware. The floor will be finished with a white skirting board to match the interior carpentry, thus creating a fully integrated ambience throughout the entire dwelling. The walls will be finished in plain emulsion paint and suspended ceilings will be hung throughout, also in an emulsion paint finish.

## Kitchen

Preparing your favourite dishes will be much easier in this space we have designed for you. These are the specifications and finishes included in your new kitchen in South Place:

- › Porcelain stoneware flooring, with plasterboard drywall in a plain emulsion paint finish.
- › Suspended ceiling in a plain emulsion paint finish.
- › It will be delivered with high-capacity wall and base cabinets in a contemporary design.

It will also include the following fittings and appliances:

- › Vitro-ceramic hob.
- › Extractor hood.
- › Electric oven.
- › Dishwasher.
- › Refrigerator.
- › Washing machine.
- › Worktop and backsplash between wall and base cabinets.
- › Sink with mono mixer tap.

# Select

## Select Service

The AEDAS Homes *Select Service* enables you to customise certain aspects of your new home:

- › Choose between different ambiances depending on your tastes.
- › Upgrade specifications and finishes.
- › Terrace fixtures on the suntrap floor.

### Bathrooms

The walls of both the master and secondary bathrooms will be lined in ceramic tiling combining with porcelain stoneware floors.

They will come with suspended ceilings in an emulsion paint finish. For your convenience, the climatization system will have an access hatch in the suspended ceiling enabling future maintenance of the interior unit.

Both bathrooms will be fitted with thermostatic tapware, with a shower column in the master bathroom, resin shower tray, screen and white sanitary fittings in a contemporary design. Furthermore, the master bathroom will also include a ceramic washbasin and vanity unit.

### Terraces and/or private garden

To ensure your utmost safety, these open-air spaces will be paved in non-slip porcelain stoneware and will include skirting in the same material in the areas so requiring.

All the terraces will be fitted with a water tap and rainwater evacuation system. They will include lighting, a power socket and a TV jack.

If your home is located on the penthouse floor, you will have a spacious suntrap terrace with the spectacular views these facilities provide.

### Interior carpentry

AEDAS Homes has also paid great attention to the interior carpentry so you can enjoy all the details in your new home.

- › The home entrance door will be armoured, and it will come in a white lacquer finish and be fitted with a spyhole.
- › Doors inside the dwelling will be finished in white lacquer with chrome handles, giving your home a smart, stylish appearance. In general, they will be swing opening, except in those cases where sliding doors may be fitted to improve the usability of the room to which they give access.
- › Cupboards and wardrobes will come with swing-opening doors to make maximum use of the space available. They will come in a white lacquer finish to match the rest of the carpentry and have modular interiors with a melamine lining, including an upper shelf and hanging rail in bedroom wardrobes.

### Interior walling and insulation

The drywalling employed in your new home will provide the perfect base for a plain paint finish.

- › **Dividing walls between rooms:** In drywalling.
- › **Dividing walls between dwellings:** In drywalling with noise insulation panelling.
- › **Dividing walls between dwellings and communal spaces:** In drywalling with noise insulation panelling.

# Installations

## Plumbing and drains

The plumbing installation will include water inlets for each bathroom and kitchen fitting (sink) and for the electrical appliances in the kitchen and utility area (dishwasher and washing machine).

Your home will have a general cut-off valve and individual cut-off valves for each room containing plumbing.

Domestic hot water will be produced for all the homes in the development by a high energy efficiency arothermal heat pump.

Each of the bathroom fittings in the home will be connected to the drains using sound-buffering PVC downpipes which will pass through the conduit chambers beside the dwelling.

## Heating/Climatization

To ensure you enjoy the utmost comfort, your new home will be fitted with an air conditioning system for both heating and cooling. It will come with a distribution duct network with supply and return air grilles in the lounge and bedrooms.

Temperature will be thermostat controlled.

## Electricity/Telecommunications

Your home will contain the necessary electricity and telecommunications sockets to comply with regulatory standards, as well as a video door phone for communication with the lobbies and the entrance gate to the community.

The bathrooms, kitchen and passageways in your home will come with LED luminaries.

## Ventilation

Your home will include a ventilation system to keep indoor air healthy and assure compliance with the Technical Building Code.

# The Building

## Façade and roof

The façades have been designed to comprise a double leaf enclosure with a brickwork exterior and a dry-wall interior. The exterior face will be rendered in cement mortar and finished in paint specifically for exteriors.

The make-up of the façades in conjunction with the terrace designs will give the building a sleek, contemporary appearance. The finishes will combine thermal performance with the most avant-garde design, adapted to meet the needs of the 21st century.

The façade will also include an air cavity with thermal insulation, which will result in significant energy savings and make the interior of your home much more comfortable.

The roofs have been designed depending on the use for which they will be employed, always guaranteeing their watertightness.

### Exterior carpentry and glazing

All the exterior carpentry and glazing will be to Technical Building Code standard and, more specifically, compliant with the Basic Energy Saving and Noise Protection Documents, thus raising the level of comfort inside the dwelling. South Place will come with:

- › Aluminium profile carpentry with thermal bridge break, combining different opening systems depending on location.
- › Double-glazing with a dehydrated air chamber.
- › Motorised, roll-up, aluminium slat blinds with injected insulation in lounge and bedrooms. Colour similar to the exterior carpentry.

### Structure and foundations

Your new home will have a reinforced concrete structure with waffle and slab flooring above ground, calculated to meet current regulations and to Technical Building Code standard. The foundations will be projected in accordance with the conclusions of the Geotechnical Survey.

### Staircases and floor hallways

The staircase and floor hallways will be finished in ceramic tiling with matching skirting and the walls will have an emulsion paint finish.

### Garages and boxrooms

Garage entry and exit doors will be automatic and fitted with a crush-prevention safety device. They will be operated by remote control.

The boxrooms will be painted and come with a metal door, all to the regulatory standards required for their location.
