J. DANIEL RODRÍGUEZ, AN ARCHITECT WITH A NEW VISION

J. Daniel Rodriguez, an architect of renowned fame throughout Spain, joins the project with a personal goal: to achieve a unique design that is based on nature and energy in an extraordinary environment.

Reserva del Higuérón Privé and Grupo Ansan join forces to make this project a benchmark on the Costa del Sol, an exclusive residential complex where not only quality and details prevail, but where the final goal is to achieve happiness through spirituality and sensations.

Stupa Hills is not just a residential housing complex, it's a lifestyle.

QUALITIES WHICH HAVE BEEN STUDIED IN DETAIL TO OFFER YOU A UNIQUE EXPERIENCE

We have created a fusion of interior and exterior areas so that light, sun and breeze can flow in a new concept of the use of spaces. All of this with high quality, avant-garde and exclusive design, created to amplify the sensations of tranquillity and peace of mind.

Porcelain ceramic floors, noble materials, house automation, enclosures with thermal bridge breaks, security doors, underfloor heating and special terraces are some of the exceptional details you will find in your new home.

Stupa Hills has exclusive features such as integrated home automation.

STUPA HILLS HAS A HOME AUTOMATION SYSTEM THAT YOU CAN MANAGE THROUGH YOUR OWN MOBILE PHONE

The Fermax Smile Touch System will be the home automation management system for your home. It will allow you to manage the video intercom functions and control your home from a single 7" touch screen. Navigate through rooms, operate environments and control at any time a multitude of parameters for a home to your liking.

Plus, you can access the system via mobile devices when you're away from home.
