The information shown has been prepared from the basic project of the building and may be modified due to technical, legal or commercial requirements. The infographics of the façades, common areas, gardens and other spaces are indicative. The areas are approximate, the furniture in the infographics of the interiors is not included and the equipment in the homes will be indicated in the corresponding quality report attached to the contract documentation. The solution that is finally implemented will conform to what is stated in the corresponding implementation project. All the information referred to in RD 515/89 of 21 April and in the applicable state and regional regulations is available at our offices.

LOCATION

Baviera Golf is designed for enjoyment, located in the coastal town of Vélez-Málaga (Málaga). It is located in a unique environment, in the Baviera development that adjoins the Baviera Golf golf club.

In the town of Caleta de Vélez, 2 kilometers from the development, you will find all nature of facilities and services are available such as nurseries, schools, health centres, sports centres, pharmacies or supermarkets.

Baviera Golf is in an unbeatable location; it is located 30 minutes from the airport and with direct access to the Malaga-Granada-Almería motorway (A-274).

P R O J E C T

Baviera Golf is a unique residential development with all the necessary features of a modern development, making it the ideal place to live. The development consists of 154 homes with 2 and 3 bedrooms, all of which have a parking space and storage room.

We have taken care of every detail to turn this development into your future home. Therefore, we offer you homes that stand out for their excellent design and luminosity.

Garage

Storage room

FACILITIES

The common areas undoubtedly provide a wealth of great advantages to make your life much easier and more pleasant. A unique place you can enjoy with whoever you want.

To do so, Baviera Golf has an exclusive swimming pool surrounded by green areas, a gym and gourmet social room.

All the graphic documentation included in this page is merely indicative. The designs of the common areas of the development do not show the final details, since they have been combined with those of other developments already developed.

SWIMMING POOL

The pool is designed to make the summer months more pleasant and, above all, more refreshing.

GYM

Staying fit and living a healthy lifestyle is now easier than ever. Enjoy your workout without leaving your community.

SOCIAL-GOURMET ROOM

For shared moments you have at your disposal the social- gourmet room. A fully equipped space with an elegant, modern and, above all, comfortable decoration. Here you can experience unforgettable social and family gatherings.

ENERGY RATING

We create buildings of low energy consumption, highly insulated and weatherproofed.

We build homes with latest-generation technology, developed for comfortable everyday use.

This classification signifies an estimated energy saving of 82% and therefore an important economic saving, taking as reference a home with energy efficiency classification "F".

The building has a "B" Energy Efficiency Classification, which means a reduction of CO2 emissions and a significant reduction of the building's energy demand (heating, cooling and sanitary hot water).

The estimated saving, adding the annual energy cost of gas and electricity, could be up to €600.*

*Estimated calculation of energy saving for a typical home with a net surface area of 95 m² and a B rating compared to a benchmark home with an F rating, pursuant to 'Calificación de la eficiencia energética de los edificios' (Rating Energy Efficiency for Buildings) published by the IDAE and the Spanish Ministry for Industry, Energy and Tourism in November 2015 and additional legislation that complements this and/or may replace it. **Minimum saving guaranteed as regards consumption of clean hot water for the entire building, considering its location and the minimum occupation values pursuant to prevailing applicable legislation.

**Guaranteed minimum saving in domestic hot water consumption (DHW) in the building as a whole, taking into account its location and the minimum occupancy values according to the current applicable standard.

Home ventilation

- Controlled mechanical ventilation of the residence.
- Continuous ventilation of the residence using guided extraction from bathrooms and kitchen and admission through bedrooms and lounges.
- Joinery with micro-ventilation position.
- Reduces energy consumption in the home.

Heat insulation

Increased head insulation, obtained by improving the thermal envelope by doubling the facade insulation as well as the carpentry and incorporating low emissivity glass.

 lifestyle

LIVING IN
BAVIERA GOLF

means enjoying your own lifestyle

Living in **Baviera Golf** home means living with your own lifestyle. We differentiate ourselves by the way we conceive our homes and by all the services we place at our customers' disposal.

lifestyle

Personalization

Our clients are what is most important to us and we know that no two clients are the same. That is why we want to offer you a personalisation programme* with different options so that you can make choices based on your individual tastes and needs.

A world of possibilities and proposals for designing an environment that each client will be able to fully identify with from day one, choosing from different materials, colours and textures for walls, floors, wardrobes and kitchens.

*Deadlines are subject to building deadlines.

Consultant Sale

The change of economic scenario forces us to make a reflection on a different perspective of the sales model. In the information age, in which with a single click we have a vast range of options without leaving home, it is essential to differentiate yourself and return to the model of personalised sale, in which the commercial agent plays a role of advisor and not of seller.

The most important factor is to LISTEN to the customer, to know their circumstances and detect the true requirements they express, in order to offer a product that meets their expectations.

lifestyle

Interior design

We know how important it is for our clients to feel their home and the common areas of their development as a special space where they can build unforgettable memories. Therefore, we work with the best interior designers to design and decorate these spaces, providing all their vision and experience based on the latest trends.

We can put you in contact with the interior designer of your development if you wish, so that he or she can make your home a unique space.
